Globalization and Security Relations across the Taiwan ...

Globalization is becoming an ever more influential "architect" of the new international security agenda. Its impact on the evolution of the relations among states in this key area is contradictory. Its impact on the evolution of the relations among states in this key area is contradictory.

International Security in the Era of Globalization

Economic crises extend across state borders and are producing global hardships. All of these are aspects of what is commonly referred to as "globalization," and all have important security implications.¹ Most dangerously, a variety of threats have become global in scope and more serious in their effects as a result of the spread of knowledge, the dispersion of advanced technologies, and ...
